IOB STUDENTS' UPDATE - JANUARY 2020

Greetings!!!

A happy new year to all our dear students. We believe you rested well during the festive season. Now it is back to class and books. The journey starts now without waiting for the examination period. The IOB staff wishes you well in 2020. We look to a fruitful year and that we will work hand in hand together. Please feel free to come and visit us at the offices for any complaints or suggestions you might have. Sometimes, issues are best resolved through face to face interaction. Your success is our pride, so let us join hands and walk through this journey together.

DEFFERMENTS

Please note that deferment is **not allowed** unless there are some natural factors that have necessitated the deferment i.e. death in family or hospitalisation.

MAY 2020 EXAM PREPARATIONS

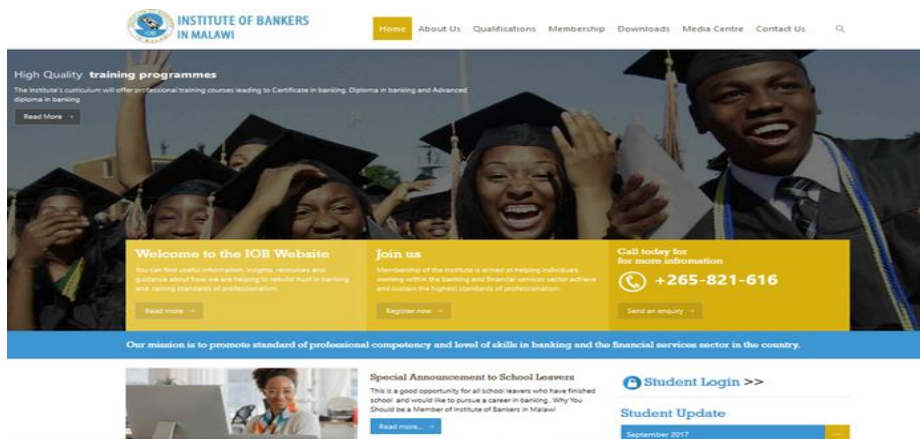

An early bird catches a worm. It is better that you start studying for your examinations now. We encourage all candidates to read widely beyond the manuals. Try to do some research on the internet or group discussions to widen your knowledge. The time is now to prepare for the May 2020 examinations.

As it has been announced in the past, you will be given an electronic copy of the modules to facilitate your reading. If you would want us to photo copy for you, you are welcome to do so but at a fee.

IOB WEBSITE

The Institute has updated its website for easy interaction with you, our valued member students. The website includes recent past papers, student updates, useful links, Student MIS login and Syllabus just to mention a few. You are therefore encouraged to be checking news and announcements regularly on the website. All upcoming events and news will be posted on the website for your information.
